You are invited to join public listening sessions hosted by the Institute for Tribal Environmental Professionals (ITEP's) new program for Tribal Clean Transportation! ITEP is eager to hear from Tribal leaders, staff, and community members how ITEP can better support Tribes as they justly transition to cleaner electric Tribal fleets to meet the mobility needs of Tribal members and improve air quality.

U.S. DOE's National Renewable Energy Laboratory (NREL) representatives will also present a brief overview of NREL's technical support for Tribal Clean Transportation. ITEP will use the feedback from these listening sessions to implement the new Tribal Clean Transportation Program to support Tribes in their just transition to electric vehicles.
