

# Addressing Requirements for Regulatory Air Monitoring for Tribes

**Course Dates:** June 13-15, 2023

**Course Location:** Pechanga, CA

**Application Due:** Wednesday, April 26, 2023

**Apply Now:** <https://forms.gle/9eoy3Ud44woc69CQA>

**Course Description:** This advanced professional development course is designed for those gathering data to be used for regulatory purposes (NAAQS comparison) as well as other Tribal Agency objectives for gathering legally defensible data. It will provide participants with an overview of Levels of Data Validation Review to Final Data Validation as well as an Understanding of Independence of Quality Assurance as part of quality management to include strategic planning, allocation of resources and other systematic planning activities (e.g., planning, implementation, tools for assessing and reporting) pertaining to the quality system. This workshop will provide an opportunity for Tribal Agencies to share information and practices.

## The course will include:

- Presentations on the Federal requirements and guidance for collecting data to compare to the National Ambient Air Quality Standards (NAAQS)
- Case studies from Tribal Programs and a State/Local Program on their air quality programs with a focus on the quality system.
- Tribal Case Studies and discussions to develop a strategy to provide guidance to Tribes on working with agency technical reviewers to promote communication during the quality assurance review.
- Discussions with a focus on an intertribal perspective of CAA implementation of Independent QA data review to meet Tribal air monitoring regulatory reporting requirements.

The application is due on **Wednesday, April 26, 2023**. Applicants will be notified of their acceptance for the course via email by **Friday, April 28, 2023**.
