- Which of the following best describes your role?
 - Tribal Environmental Staff
 - Community Member or Tribal Leader
 - Federal or State Partner
 - School Administrator or Staff
 - Other

Poll Question 2

Have you worked on Indoor Air Quality issues?

- o No
- A little
- o Yes

Indoor Air in Tribal Schools

Pre-pandemic

Lots of concerns and issues

Good air quality

- Reduce asthma impacts
- Reduce illnesses / absences
- Improves academic performance

Common Concerns

- Many older buildings have limited mechanical ventilation
- Schools with HVAC may reduce fresh air intake to conserve energy (and money)
- Back-logged maintenance
- Shortage of custodial staff
- Obsolete cleaning practices

Checking Ventilation in Schools

- Using Carbon Dioxide to check ventilation
- Using Smoke Puffer to check exhaust fans

Basic Principles

- 1. Source Control
- 2. Ventilation
- 3. Air Cleaning

Pollutant Sources

- People everyone is a source of pollutants
 - Personal care products
 - Students & staff with communicable diseases
- Air Fresheners and Perfumes
 DO NOT clean the air

School Ventilation:A Vital Tool to Reduce COVID-19 Spread
