

TRIBAL PFAS WORKING GROUP

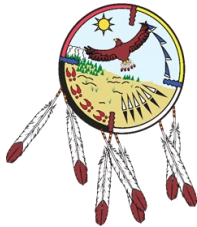

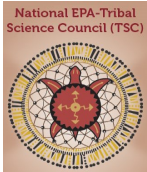

The Tribal PFAS Working Group (TPWG) formed in April 2020 to help address and reduce per- and polyfluoroalkyl substances (PFAS) in Indian Country. The working group is comprised of members of the National Tribal Water Council, Tribal Science Council, National Tribal Toxics Council, Tribal Waste and Response Steering Committee, and Tribal Pesticide Program Council.

The Working Group conducts monthly conference calls. The priorities of the Working Group include:

- Identify tribes that are affected by PFAS;
- Develop and identify PFAS tools and resources;
- Promote the Tribal PFAS Working Group webpage;
- Advocate for rulemaking, research and education actions; and
- Develop and host workshops on PFAS issues.

More information on the Tribal PFAS Working Group may be found at the NTWC website.

NTWC Mission Statement

To advocate for the best interests of federally-recognized Indian and Alaskan Native Tribes, and Tribally-authorized organizations, in matters pertaining to water. To advocate for the health and sustainability of clean and safe water, and for the productive use of water for the health and well-being of Indian Country, Indian Communities, Alaska Native Tribes and Alaska Native Villages.

 [Facebook.com/NationalTribalWaterCouncil](https://www.facebook.com/NationalTribalWaterCouncil)

The Council is administered by the Institute for Tribal Environmental Professionals with grant funding from the U.S. Environmental Protection Agency, Office of Water.

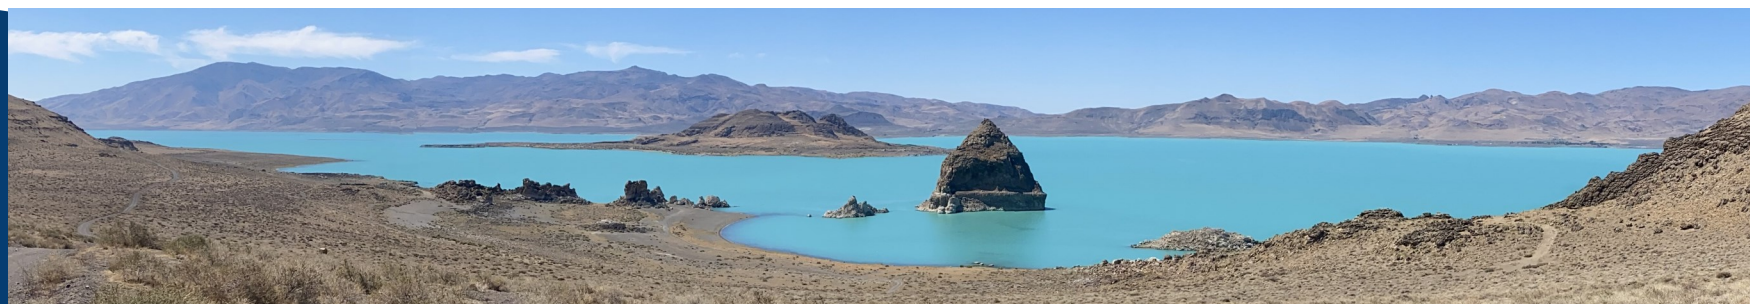

WHO WE ARE

The National Tribal Water Council (Council/NTWC) is a technical and scientific body created to assist the Environmental Protection Agency (EPA), federally recognized Indian Tribes, Alaska Native Tribes, and associated tribal communities and tribal organizations, with research and information for decision-making regarding water issues and water-related concerns that impact Indian and Alaska Native tribal members, residents of Alaska Native Villages and Indian Country in the United States. The Council is not a policy-making body and its input is not a substitute for government-to-government consultation.

Council membership consists of the following members:

- ◆ Ken Norton, Hoopa Valley Tribe (Chair)
- ◆ Michael Bolt, Eastern Band of Cherokee Indians (Vice Chair)
- ◆ Daniel Kusnierz, Penobscot Indian Nation
- ◆ Brian Patterson, Oneida Nation
- ◆ Shaun Livermore, Poarch Band of Creek Indians
- ◆ Nancy Schuldt, Fond du Lac Band of Lake Superior Chippewa
- ◆ Jaclyn McCasland, Delaware Nation
- ◆ Denise Jensen, Winnebago Tribe of Nebraska
- ◆ Chauncey Means, Confederated Salish & Kootenai Tribes
- ◆ Yolanda Barney, Navajo Nation
- ◆ Scott Hauser, Upper Snake River Tribes Foundation
- ◆ Eric Morrison, Salamatof Tribe
- ◆ Ann Wyatt, Klawock Cooperative Association/Tribe
- ◆ Region 10 Representative (*Vacant*)
- ◆ At-Large Representative (*Vacant*)

WHAT WE DO

The NTWC holds in-person meetings biannually, conducts monthly conference calls, and works to address priority water issues impacting Indian Country. The Council has a strong working partnership with EPA's Office of Water to advance and promote water issues of importance to tribes and EPA. Furthermore, the Council undertakes other activities, collaborative efforts, and information exchange. Below is a highlight.

Policy Responses

Conducts analysis of water related policies and initiatives that impact Tribes. The Council, in collaboration with subject matter and legal experts (i.e., Tribal Advisory Committee), responds by preparing comment letters, briefs or memorandums.

Information Exchange and Outreach

Works to enhance involvement and collaboration in national, regional, and work group meetings; participates in informational sessions at various conferences.

Works to increase outreach efforts to Indian Country through NTWC's website, monthly newsletter, and presentations at various water forums and meetings to promote tribal water program issues and priorities.

Publishes a "Tribal Water Priorities" document that identifies Clean Water Act (CWA) and Safe Drinking Water Act (SDWA)

priorities of the Council and tribes. This document helps to better inform EPA's Office of Water on key issues of importance to the Council and to the tribes.

Publishes a monthly NTWC Newsletter that is distributed through the NTWC listserv. The newsletter includes water-related information on Council activities, consultation opportunities, training events, webinars, and grant opportunities.

Water Topics

Water topics addressed by the Council include the list below. This list is not exhaustive and additional concerns or emerging issues are added as they arise.

- Water - Drinking, Ground, Surface and Reuse
- Nutrient Strategies
- Indigenous Cultural Values and Water
- Indian Country and Climate Change Impacts
- Infrastructure Development Concerns
- Other Challenges in Indian Country

Visit the NTWC Website

Please visit the website to access the Council's comment letters and important water quality resources for Tribes. It is evolving to better meet the needs of tribal water professionals.
