Dear friends,

Thank you for your support of the Native Voices Newsletter. As briefly mentioned in the June 2020 issue, the Newsletter has taken a pause in production as we at the American Indian Air Quality Training Program (AIAQTP) continue to rethink and adapt to the way we function.

We continue to be available and offer our resources and services. Below, you will find more information and the appropriate contacts. Thank you for your patience as we continue to learn from each other, we will work together to chart a path for the changing needs of the future.

Sincerely,

The American Indian Air Quality Training Program (AIAQTP)

Virtual Cohort Trainings – Contact Christal.Black@nau.edu

Coming soon! Subscribe to our listserv(s) for updates or visit our Training Schedule.

- Community Outreach and Education
Indoor Air Quality
