

AIR PERMIT WEBINAR SERIES

10:00AM PDT, 11:00AM
MDT, 12:00PM CDT,
1:00PM EDT

2 SESSION WEBINAR

Mr. Andrew D. Shroads, QEP, has over 25 years of experience working for industry, the Environmental Protection Agency, and tribes on reviewing air permits, inspecting sites, and commenting on permits. For this two-part webinar series, Andrew is working for the Institute for Tribal Environmental Professionals (ITEP) to help tribes review and comment on air permits from sites that would impact tribal lands. This webinar series has time built in for an interactive Q&A session, so come with your air permit-related issues, question, and concerns and Andrew will be happy to help. In the second part of the webinar series, one of the tribes that has used the Permit Screening Tool to identify impacts to tribal lands will present a case study.

Part 1: Two Hour Session SEPTEMBER 8, 2025 Committing on a Permit

Ever have questions on how to review and commit on a permit, join this session to get tips and tricks to improve your process.

Part 2: Two Hour Session SEPTEMBER 15, 2025 Using the Air Permit Screening Tool

A tool developed by Andrew to help tribes assess the impacts from new and modified sources of air pollution on tribal lands. Join the designer of the screening tool to discuss how to use it, what information it can provide, and other resources for preparing comments on air permits.
