Fire Damaged Homes (3) with Asbestos 2011

Assessments funded by
128(a) Grant – Demolition by
US EPA Removal Program

A person wearing a white full-body protective suit, a red and white striped head covering, and purple gloves is leaning over a table. They are using a pipette to transfer liquid into a small white container. The table is cluttered with various items including a syringe, a small bottle, a red-handled screwdriver, and several clear plastic bags. The background shows a plain, light-colored wall and a concrete floor with some debris.

Meth House Testing & Remediation
