<p><b><u>EPA NPL</u></b> <b><u>Status</u></b> <b><u>Information</u></b></p>	<ul style="list-style-type: none"> <li>- Recent Site History: Contamination at the Portland Harbor Superfund Site is a result of industrial operations for more than a century. At least 17 industrial operations, have been stationed along 12 river miles of the Willametter River. Contamination of surrounding soils, waters and seafood pose a risk to human and ecological health especially to those who eat fish found in Portland Harbor, such as bass, carp and catfish.</li> <li>- Response activities: The site was listed on the NPL in 2000 with a HRS score of 50.00. The next step is the remedial investigation/feasibility study (RI/FS).</li> </ul>
