<p><b><u>EPA NPL</u></b> <b><u>Status</u></b> <b><u>Information</u></b></p>	<ul style="list-style-type: none"> <li>- Recent Site History: U.S, military used Adak NAS as a key operations and supply location in the early 1940s during WWII. Over a 40-year period, operators disposed of hazardous substances on the 76,000 acre site. These areas included landfills, drum disposal areas, spill sites and pits for waste oil and fire-fighting training. Petroleum, solvents, batteries, transformer oils, unexploded explosive weapons that pose a risk of detonation and pesticides are some of the hazardous materials present.</li> </ul>
<p><b><u>Map Key</u></b> Native Lands — NPL Site ● 4 Mile Buffer —</p>	<ul style="list-style-type: none"> <li>- Response activities: The site was listed on the NPL in 1994. The next step is the remedial investigation/feasibility study.</li> </ul>

<p><b><u>Primary</u></b> <b><u>Contaminants</u></b></p>	<ul style="list-style-type: none"> <li>- 2,4,6-Trinitrotoluene</li> <li>- Cyclonite</li> <li>- Dinitrotoluene</li> <li>- Nitroglycerin</li> <li>- Tetryl</li> </ul>
