Estimating the Mortality Burden of Fine Particulate Matter Exposure Attributable to Indoor and Outdoor Microenvironments

Hosted by the U.S. Environmental Protection Agency (EPA) Date and Time: Thursday, June 13, 2019, 1:00 p.m. – 2:30 p.m. EDT Exposure to fine particulate matter (PM_{2.5}) is associated with increased mortality. Epidemiology studies typically use outdoor $PM_{2.5}$ concentrations to estimate exposure, but the majority of $PM_{2.5}$ exposure in the United States occurs indoors and in other microenvironments. In this webinar, we will present a framework for estimating the total U.S. mortality burden attributable to indoor and outdoor $PM_{2.5}$ exposure in the primary microenvironments in which people spend most of their time. Register for *Estimating the Mortality Burden of Fine Particulate Matter Exposure Attributable to Indoor and Outdoor Microenvironments*.

Tribal Grants Education and Technical Assistance Webinar Series Second Wednesday of Every Month at 1pm ET

For more information, click here!

Registration is open for the 2019 Tribal Lands & Environment Forum!

August 19-22, 2019 in Palm Springs, California

You can visit <u>http://www7.nau.edu/itep/main/Conferences/confr_tlef</u> where you'll be able to register, submit session proposals, and find out information about travel and lodging options. This year we'll be in beautiful Palm Springs, California. Sure, it's August in the desert, but given the hard winter many of you have dealt with this year, we figured this might help you thaw out! We have some really exciting new options for you this year. Over the last few months, we've been working with the Agua Caliente Band of Cahuilla Indians, as well as several other Tribes in the Palm Springs area, on some special field trips and cultural events that you won't want to miss. Also, for the first time, we're putting together a noon-time event on Wednesday that will feature a special guest. More details on those activities will be coming soon. We're all very much looking forward to seeing you at this year's TLEF! More information here!

NTAA Upcoming Calls. The toll-free number is 1-800-309-2350. If you do not need to call toll free, or would like to help conserve NTAA funding, you can call 1-805-309-2350. Both numbers use code 928-523-0526#.

Contact <u>Andy.Bessler@nau.edu</u> if you have any questions about any call! ***Registration instructions*** When you register for the GoToWebinar, please remember to include your Tribe, Region, or Organization in parenthesis after your last name. This allows you to see everyone on the call and prevents us from conducting a roll-call, ultimately saving everyone's time.

Wood Smoke Work Group: A 3-part webinar series will replace the regular work group calls for the next few months. See below under "Indoor Air Quality" for more information.	Wednesday, June 5, 3pm ET
Indoor Air Quality Work Group: Join this work group to help support IAQ work throughout Indian Country	Thursday, June 20, 2pm ET
NTAA/EPA Air Policy Update Call: Receive air quality policy updates from EPA and NTAA	Thursday, May 23, 2pm ET
Mobile Sources Work Group: Formerly the VW Work Group, this Work Group will address all mobile source pollution issues.	Thursday, June 6, 2pm ET

The Institute for Tribal Environmental Professional's (ITEP's) Tribes and

Climate Change / Energy

Tribal Resilience across the Country: From Guidebook to Action Wednesday, May 22 from 1:00-2:30 PM ET

How can tribal communities integrate unique issues and traditional knowledges into climate adaptation?

Join us on May 22 at 1 PM (ET) for a 90-minute webinar that will:

- 1. Introduce the <u>Tribal Climate Adaptation Guidebook</u> produced by the Oregon Climate Change Research Institute and Adaptation International, and
- 2. Highlight the experiences of three practitioners advancing climate adaptation and resilience within their tribes.

Register

Climate Change Adaptation Planning: In-Person Workshop

When: June 4-6, 2019

Where: Las Cruces, New Mexico

The Institute for Tribal Environmental Professionals is excited to be collaborating with the <u>USDA Southwest Climate Hub</u> on an Introduction to Climate Change Adaptation Planning course. This course provides an overview to planning for climate change impacts, highlighting the work of tribes that have completed an adaptation plan or vulnerability assessment. The course is intended for tribal environmental and natural resource professionals who expect to be involved in climate change adaptation and resilience planning. Since the course will focus on climate change impacts and planning in a specific region, we especially encourage people from that region to attend.

Topics will include but not limited to:

- Climate change in the Southwestern region
- Process of developing climate change adaptation plans
- Climate change impacts, vulnerabilities, and adaptation strategies
- Tools and resources for the planning process including ITEP's adaptation toolkit

This course employs a variety of instructional methods such as presentations including tribal case studies, regional science, TEK and large- and small-group discussions, activities and a ½-day field trip. Participants will complete a pre-course assignment prior to attending (*will be sent after confirmed registration*). There are no pre-requisites. However, we expect participants to have a basic understanding of climate change and its impacts on respective tribal resources. ITEP can recommend background material to review upon request. <u>To register, click on this link</u>.

ITEP's Climate Change Adaptation Training Courses registration is online! Learn more about the courses and register here.

Indoor Air Quality

CIAQ Webinar

The Federal Interagency Committee on Indoor Air Quality (CIAQ) will hold its next public webinar on Wednesday, June 5, 2019, beginning at 1:00 p.m. EDT. At the meeting, CIAQ member agencies will provide updates on indoor environmental quality–related activities at their agencies, with the goal of enhancing opportunities for collaboration and coordination. Following agency updates, presentation(s) on a topic of current interest to the IAQ community will be delivered. The proposed topic for this meeting involves using novel approaches for exploring indoor environmental exposures, including some asthma triggers in homes. The agenda for the June meeting, including the specific topic and presenter, will be announced on the <u>CIAQ website</u> shortly. To register for the webinar, please <u>visit this link</u>. For audio, participants should call toll-free (855) 883-8661 and provide the operator with the conference ID 6983957 when prompted.

NTAA's Indoor Air Quality Work Group Presents an Informational Webinar: Policy Tools to Address Vaping and E-Cigarettes in Tribal Communities on Wednesday, June 26, 2019 at 2:00 pm ET

This webinar will explore vaping and e-cigarettes and how Tribes can create and utilize policy tools to reduce IAQ threats from this emerging trend in tobacco use. The 1 ½ hour-long webinar will include speakers from the California Department of Public Health's Tobacco Control Program (CDPH). You can register here.

Be sure to subscribe to <u>CodeTalk</u>, HUD's Office of Native American Programs newsletter, for webinars and opportunities!

RESOURCES

Ambient Air Quality/EPA/NTAA/Tribes

May is Asthma Awareness Month!

EPA supports local programs working to help people in their communities bring asthma under control. The first step is raising awareness throughout communities that asthma is a serious, sometimes life-threatening chronic disease that can be controlled. Though May is Asthma Awareness Month, don't wait to take action - you can make every month Asthma Awareness Month. Learn more about EPA's resources here.

To view and/or receive ITEP's American Indian Air Quality Training Program newsletter, <u>Native Voices, click here</u>!

Climate Change/Energy

On-Request Technical Assistance from DOE Office of Indian Energy

The DOE Office of Indian Energy provides federally recognized Indian tribes, including Alaska Native villages, tribal energy resource development

organizations, and other organized tribal groups and communities, with technical assistance to advance tribal energy projects at no cost. Technical experts from DOE and its national laboratories, along with other partnering organizations, provide support to assist Indian tribes and Alaska Native villages with energy planning, housing and building energy efficiency, project development, policy and regulation, resilience, and village power. For more information, visit the on-request technical assistance description.

NREL Decision Support for Tribes

NREL's State, Local, and Tribal program partners with Native American tribes and Alaska Native villages, the U.S. Department of Energy (DOE), and other federal agencies, nonprofits, and intertribal organizations to provide resources and direct assistance that support energy technology delivery and connect motivated tribal governments with NREL's world-class science and analytics.

Energy Decision Support

To connect tribes with credible, timely, and actionable scientific information on which to base their energy decisions, NREL provides the following tailored programs:

- Technology and market analytics
- Direct technical assistance
- Capacity building
- Resilience assessment and planning

For more information, visit the technical assistance description.

<u>New Tool Finder for Local Government</u> Clean Energy Initiatives

Looking for just the right tools and resources to help measure the emissions, energy, and economic impacts of your local government's current and prospective environmental programs and policies? A little overwhelmed by the number of tools and resources that are out there? Limited to using free, publicly-available resources?

Our new <u>Tool Finder for Local Government Clean Energy Initiatives</u> will help you navigate the many freely-available tools and resources for measuring emissions, energy, and economic impacts of energy efficiency, renewable energy, transportation, and waste programs at both the government operations and community-wide scales.

Based on your inputs, the Tool Finder provides a tailored list of tools and resources that may be appropriate for achieving your goals. The Tool Finder offers key details on each tool and resource so you can quickly decide if it's relevant to your needs. Users may review and print summaries on each tool or resource, including information about level of detail, impact types covered, sectors covered, ease of use, and intended audience.

Find your tool!

Toxics/Mobile Sources

DOE Clean Cities Coalition Network Technical Assistance

Eligible Entities: Clean Cities Coalitions

Clean Cities connects transportation stakeholders with objective information and experts to assist with alternative fuels, fuel economy improvements, and emerging transportation technologies. Through these trusted, time-tested resources, Clean Cities has helped fleets and fuel providers deploy hundreds of thousands of alternative fuel vehicles and fueling stations that serve a growing market. Clean Cities continues to support the entry of new transportation technologies into the marketplace. For more information, visit the <u>technical assistance description</u>.

Applications are now being accepted for the Tribal Waste and Response Steering Committee (TWAR SC), Deadline: May 31, 2019

The TWAR SC is a Tribal Partnership Group composed of Tribal professionals working in the front lines on Superfund, solid waste, emergency response, UST, and brownfields programs. They provide two-way communication between US EPA's Office of Land and Emergency Management and Tribal professionals across the country. They also produce an annual Priorities Document, communicate Tribal concerns to federal agencies, assist with the development of the Tribal Lands and Environment Forum, serve as mentors to their colleagues at other Tribes, and collaborate with other Tribal Partnership Groups.

A selection team will be evaluating all the applications, and choosing up to five Tribal professionals to serve two year terms, starting on November 1, 2019. All applicants will be contacted later this summer to let them know if they have been selected. The deadline for applications is May 31, 2019. If you are interested in being considered, please request an application from Todd Barnell at todd.barnell@nau.edu, and submit it along with your resume and up to three letters of recommendation. You may also contact Todd with any questions you have.

Indoor Air Quality

Free Downloadable Asthma Awareness Posters

Promoting good indoor air quality helps children and elders manage breathing conditions. The posters linked below help identify problems with air quality that trigger asthma attacks. Courtesy of the Tulalip Tribe, Downloadable for free in two versions, one is on the <u>Tribal Healthy Housing Network</u> webpage, the other is on <u>US EPA's webpage</u>.

Spanish-Language Resources for Asthma Awareness Month

May is <u>Asthma Awareness Month</u>. EPA has information in Spanish about asthma and indoor air quality at <u>espanol.epa.gov/cai/recursos-para-la-calidad-del-aire-</u><u>interio</u>. The site has information on many indoor air pollutants, including environmental <u>asthma triggers</u>, <u>mold</u> and <u>carbon monoxide</u>. If you're working with a Spanish-speaking community to reduce exposure to environmental asthma triggers, this new <u>checklist</u> is useful. There also is guidance for cleaning up after a flood and improving air quality in <u>schools</u>. For outreach and educational activities, many Spanish-language publications are available online at <u>espanol.epa.gov/cai/publicaciones-sobre-calidad-del-aire-interior</u>. Additionally, the <u>National Service Center for Environmental Publications (NSCEP)</u> has quantities of free Spanish-language indoor air quality publications.

HUD's Smoke Free Public Housing Policy Resources

For information and support on HUD's Smoke Free Public Housing, <u>visit their</u> <u>website here</u>.

Be sure to sign up for EPA's Healthy Indoor Air newsletter.

FUNDING OPPORTUNITIES

Ambient Air Quality/EPA/NTAA/Tribes

National Indian Health Board Changemaker Grants

Community Changemaker Grants are small amounts of money (\$250) that can help supercharge a youth-led health event. They are open to American Indian and Alaska Native youth ages 14-24 years old. Learn more here!

Notice of Funding Availability- Indian Housing Block Grant Competitive Grant Program

On May 7, 2019, HUD published the Notice of Funding Availability (NOFA) for the Indian Housing Block Grant (IHBG)-Competitive Grants Program. This NOFA announces the availability of \$198 million for competitive grants to Indian tribes and tribally designated housing entities eligible to receive IHBG funding under the Native American Housing Assistance and Self-Determination Act of 1996, as amended (25 U.S.C. 4101 et seq.).

Locate and read the Dear Tribal Leader letter here, and apply here.

EPA OLEM FY20 Environmental Workforce Development and Job Training Grants – \$4 million

Applications Due: June 10, 2019

Eligible Entities: general purpose units of local government, land clearance authorities, government entities created by State Legislature, regional councils, This notice announces the availability of funds and solicits proposals from eligible entities, including nonprofit organizations, to deliver Environmental Workforce Development and Job Training programs that recruit, train, and place local, unemployed and under-employed residents with the skills needed to secure full-time employment in the environmental field. For more information, visit the funding opportunity <u>description</u>.

DOI BIA Tribal Resilience Grants and Ocean and Coastal Management and Planning Grants- Federally Recognized Tribes

Applications Due: June 10, 2019

Eligible Entities: Native American tribal governments

The Bureau of Indian Affairs (BIA) announces funding for awards to support tribal resilience and ocean and coastal management and planning. Awards will be made to projects that address vulnerability to extreme events and harmful environmental trends through development of regionally focused or topically focused training, adaptation planning and data development, and travel to access training and attend technical workshops to build skills and capacity. Applications should describe how proposed projects will incorporate science (including Traditional Knowledge) and technical information to address vulnerability to extreme events and harmful environmental trends. Awards will also support projects that ensure tribal participation in ocean and coastal (including the Great Lakes) cooperative planning and projects for resource health, resiliency, community safety, and economic security for present and future generations. For more information, visit the funding opportunity <u>description</u>.

DOI BIA Tribal Resilience Grants and Ocean and Coastal Management and Planning Grants- Tribal Organizations

Applications Due: June 10, 2019

Eligible Entities: not-for-profit, non-governmental tribal organizations and associations, and tribally-controlled colleges and universities

The Bureau of Indian Affairs (BIA) announces funding for awards to support tribal resilience and ocean and coastal management and planning. Awards will be made to projects that address vulnerability to extreme events and harmful environmental trends through development of regionally focused or topically focused training, adaptation planning and data development, and travel to access training and attend technical workshops to build skills and capacity. Applications should describe how proposed projects will incorporate science (including Traditional Knowledge) and technical information to address vulnerability to extreme events and harmful environmental trends. Awards will also support projects that ensure tribal participation in ocean and coastal (including the Great Lakes) cooperative planning and projects for resource health, resiliency, community safety, and economic security for present and future generations. For more information, visit the funding opportunity <u>description</u>.

USDA AMS Farmers Market Promotion Program – \$11.5 million

Applications Due: June 18, 2019

Eligible Entities Include: Food councils, local governments, public benefit corporations, regional farmers market authorities, tribal governments The U.S. Department of Agriculture (USDA), Agricultural Marketing Service (AMS), requests applications for the fiscal year 2019 Farmers Market Promotion Program (FMPP). FMPP's purpose is to help support the development, coordination, and expansion of direct-producer-to consumer markets to help increase access and availability to locally and regionally produced agricultural products. AMS will competitively award grants to eligible applicants for projects that meet the purpose of this grant program. For more information, visit the funding opportunity description.

USDA AMS Local Food Promotion Program – \$115 million

Applications Due: June 18, 2019

Eligible Entities Include: Food councils, local governments, public benefit corporations, regional farmers market authorities, tribal governments The U.S. Department of Agriculture (USDA), Agricultural Marketing Service (AMS), requests applications for the fiscal year 2019 Local Food Promotion Program (LFPP). LFPP's purpose is to help support the development, coordination, and expansion of local and regional food business enterprises to help increase access and availability to locally and regionally produced agricultural products. AMS will competitively award grants to eligible applicants for projects that meet the purpose of the grant program. For more information, visit the funding opportunity <u>description</u>.

DOI FWS Multistate Conservation Grant Program – \$6 million

Applications Due: July 26, 2019 Eligible Entities: state governments

The primary goal of the Multistate Conservation Grant Program is to provide grant funds to address regional or national priority needs (National Conservation Needs or NCNs) of the State fish and wildlife agencies (States) and their partners that are beyond the scope and capabilities of a single State. Projects awarded funding are published annually in the Federal Register. Projects funded through the MSCGP provide grant funds to address regional or national level priority needs of the States that are beyond the scope and capabilities of a single State. For more information, visit the funding opportunity <u>description</u>.

DOI FWS State Wildlife Grant Program – \$1 million

Applications Due: August 31, 2020

Eligible Entities: state governments

The State Wildlife Grant (SWG) Program provides States, the District of Columbia, Commonwealths, and Territories (States) Federal grant funds for the development and implementation of programs for the benefit of wildlife and their habitats, including species that are not hunted or fished. Eligible activities include both conservation planning and implementation activities. For more information, visit the funding opportunity <u>description</u>.

Climate Change/Energy

Toxics/Mobile Sources

DOT PHMSA Hazardous Materials Emergency Preparedness - Tribal Grants – **\$720,000**

Applications Due: May 24, 2019

Eligible Entities: Native American tribal governments (federally recognized) The Pipeline and Hazardous Materials Safety Administration (PHMSA), through the U.S. Department of Transportation (DOT), requests applications from federally recognized tribes to increase Tribal effectiveness in safely and efficiently handling hazardous materials incidents, enhance implementation of the Emergency Planning and Community Right-to-Know Act of 1986 (EPCRA), and encourage a comprehensive approach to emergency training and planning by incorporating the unique challenges of responses to transportation situations. For more information, visit the funding opportunity <u>description</u>.

MPCA offers \$3.7 million in grant funding for diesel on-road trucks and transit buses

The Minnesota Pollution Control Agency (MPCA) is offering \$3.7 million in grant funds to replace heavy duty diesel trucks and transit buses (class 4-8) in Minnesota. The grants are aimed at dramatically reducing nitrogen oxide (NOx) pollution.

How much funding is available?

Up to 25% or \$40,000 (whichever is less) per replacement

Who can apply?

Any diesel truck owner, private fleet owners, and nonprofit organizations <u>What is eligible?</u>

- Class 4-8 diesel trucks and transit buses, including short-haul delivery trucks, refuse haulers, cement trucks, box trucks, and drayage trucks (No long-haul trucks or school buses)
- The old vehicle must be diesel (1992-2009)
- New replacement vehicles may be diesel or an alternative fuel such as propane, natural gas, hybrid, or electric (not gasoline)

How do I apply?

- All application materials and eligibility details are on the MPCA website: <u>Diesel On-road truck and transit bus replacement grant</u>
- The Application period ends <u>July 9, 4:30 P.M.</u> All applications must be sent via email. No PDFs

Where can I get more information?

- A Webinar reviewing the RFP and application forms was given May 16, 1-2:30 PM. The webinar will be recorded and posted online.
- Questions must be sent by email to: <u>grants.pca@state.mn.us</u>, all questions will be answered and posted on this Web page under the Frequently Asked Questions (FAQ) tab.
