#### **UPCOMING CALLS/EVENTS/NOTICES**

#### Ambient Air Quality/EPA/NTAA/Tribes

On Thursday May 23, the Administrator signed a proposal to revise the start date for the updated Photochemical Assessment Monitoring Stations (PAMS) sites. EPA is proposing to extend the start date for the required PAMS sites from June 1, 2019, to June 1, 2021. A pre-publication version of the proposed action and a summary fact sheet will be posted later today or tomorrow to <a href="https://www3.epa.gov/ttn/amtic/monregs.html">https://www3.epa.gov/ttn/amtic/monregs.html</a>

EPA is proposing to revise the start date for the updated Photochemical Assessment Monitoring Stations (PAMS). The PAMS network measures ozone, the pollutants that form it, and meteorology to better understand ozone formation and to evaluate national and local ozone-reduction options. On October 1, 2015, in conjunction with establishing the 2015 National Ambient Air Quality standards for ground-level ozone, EPA took final action to streamline and modernize the PAMS network. The current regulations require the new PAMS network to be operating by June 1, 2019. This proposed revision would extend the start date to June 1, 2021. This action would give states two additional years to acquire the necessary equipment and expertise needed to successfully make the required measurements at the required PAMS sites. EPA will accept comment on this proposed rule for 30 days after it is published in the *Federal Register*.

#### EPA's Office of Environmental Justice seeks Advisory Council members

The Office of Environmental Justice is in the early stages of their recruiting process for new members to serve on the National Environmental Justice Advisory Council (NEJAC).

Established in 1993, the NEJAC provides advice and recommendations to the EPA Administrator about broad, cross-cutting issues related to environmental justice. To maintain the representation outlined by the charter, nominees will be selected to represent the following stakeholder workforce categories:

- Academia (3 vacancies);
- Community-based organizations (2 vacancies);
- Non-governmental organizations (1 vacancy); and
- Tribal governments and indigenous organizations (1 vacancy).

Within these sectors, EPA is seeking nominees with knowledge in community based work, including:

- youth perspectives and youth development;
- environmental measures and use of LEAN principles;
- public health/health disparities;
- community sustainability and resiliency;
- green jobs and green infrastructure;
- land use and equitable development; and
- emerging inclusion of sub-populations such as the homeless, veterans, prisoners, etc.

If you wish to suggest nominees, please submit their names, organizations, and contact information by COB, June 07, 2019 to:

#### Karen L. Martin

Office of Environmental Justice

National Environmental Justice Advisory Council

#### Estimating the Mortality Burden of Fine Particulate Matter Exposure Attributable to Indoor and Outdoor Microenvironments

Hosted by the U.S. Environmental Protection Agency (EPA) Date and Time: Thursday, June 13, 2019, 1:00 p.m. – 2:30 p.m. EDT Exposure to fine particulate matter (PM<sub>2.5</sub>) is associated with increased mortality. Epidemiology studies typically use outdoor PM<sub>2.5</sub> concentrations to estimate exposure, but the majority of PM<sub>2.5</sub> exposure in the United States occurs indoors and in other microenvironments. In this webinar, we will present a framework for estimating the total U.S. mortality burden attributable to indoor and outdoor PM<sub>2.5</sub> exposure in the primary microenvironments in which people spend most of their time. Register for *Estimating the Mortality Burden of Fine Particulate Matter Exposure Attributable to Indoor and Outdoor Microenvironments*.

#### **Tribal Grants Education and Technical Assistance Webinar Series Second Wednesday of Every Month at 1pm ET**

For more information, click here!

#### **Registration is open for the 2019 Tribal Lands & Environment Forum!**

August 19-22, 2019 in Palm Springs, California

You can visit <u>http://www7.nau.edu/itep/main/Conferences/confr\_tlef</u> where you'll be able to register, submit session proposals, and find out information about travel and lodging options. This year we'll be in beautiful Palm Springs, California. Sure, it's August in the desert, but given the hard winter many of you have dealt with this year, we figured this might help you thaw out! We have some really exciting new options for you this year. Over the last few months, we've been working with the Agua Caliente Band of Cahuilla Indians, as well as several other Tribes in the Palm Springs area, on some special field trips and cultural events that you won't want to miss. Also, for the first time, we're putting together a noon-time event on Wednesday that will feature a special guest. More details on those activities will be coming soon. We're all very much looking forward to seeing you at this year's TLEF! More information here!

**NTAA Upcoming Calls.** The toll-free number is 1-800-309-2350. If you do not need to call toll free, or would like to help conserve NTAA funding, you can call 1-805-309-2350. Both numbers use code 928-523-0526#.

Contact <u>Andy.Bessler@nau.edu</u> if you have any questions about any call! **\*Registration instructions\*** When you register for the GoToWebinar, please remember to include your Tribe, Region, or Organization in parenthesis after your last name. This allows you to see everyone on the call and prevents us from conducting a roll-call, ultimately saving everyone's time.

Wood Smoke Work Group: A 3-part webinar series will replace the regular work group calls for the next few months. See below under "Indoor Air Quality" for more information.	Wednesday, June 5, 3pm ET
Mobile Sources Work Group: Formerly the VW Work Group, this Work Group will address all mobile source pollution issues.	Thursday, June 6, 2pm ET
<b>Indoor Air Quality Work Group:</b> Join this work group to help support IAQ work throughout Indian Country	Thursday, June 20, 2pm ET
<b>NTAA/EPA Air Policy Update Call:</b> Receive air quality policy updates from EPA and NTAA	Thursday, June 27, 2pm ET

#### Climate Change / Energy

#### **Climate Change Adaptation Planning: In-Person Workshop**

When: June 4-6, 2019

Where: Las Cruces, New Mexico

The Institute for Tribal Environmental Professionals is excited to be collaborating with the <u>USDA Southwest Climate Hub</u> on an Introduction to Climate Change Adaptation Planning course. This course provides an overview to planning for climate change impacts, highlighting the work of tribes that have completed an adaptation plan or vulnerability assessment. The course is intended for tribal environmental and natural resource professionals who expect to be involved in climate change adaptation and resilience planning. Since the course will focus on climate change impacts and planning in a specific region, we especially encourage people from that region to attend.

Topics will include but not limited to:

- Climate change in the Southwestern region
- Process of developing climate change adaptation plans
- Climate change impacts, vulnerabilities, and adaptation strategies
- Tools and resources for the planning process including ITEP's adaptation toolkit

This course employs a variety of instructional methods such as presentations including tribal case studies, regional science, TEK and large- and small-group

discussions, activities and a <sup>1</sup>/<sub>2</sub>-day field trip. Participants will complete a precourse assignment prior to attending (*will be sent after confirmed registration*). There are no pre-requisites. However, we expect participants to have a basic understanding of climate change and its impacts on respective tribal resources. ITEP can recommend background material to review upon request. <u>To register</u>, <u>click on this link</u>.

#### USET Climate Resilience Summit August 27-29, Verona, NY

USET will be holding its Climate Resilience Summit August 27-29 at the Turning Stone Resort Casino in Verona, NY, on the Oneida Indian Nation. For registration please <u>follow this link</u>. This summit is meant to bring Tribal experts and partners together to share knowledge and best practices in building climate change resilience. Presenters and facilitators will include:

\* Tribal Nations with climate adaptation plans

\* Local practitioners in resilience building

\* Partners from the Northeast & Southeast Climate Adaptation Science Centers

ITEP's Climate Change Adaptation Training Courses registration is online! Learn more about the courses and register here.

#### Indoor Air Quality

#### **CIAQ** Webinar

The Federal Interagency Committee on Indoor Air Quality (CIAQ) will hold its next public webinar on Wednesday, June 5, 2019, beginning at 1:00 p.m. EDT. At the meeting, CIAQ member agencies will provide updates on indoor environmental quality–related activities at their agencies, with the goal of enhancing opportunities for collaboration and coordination. Following agency updates, presentation(s) on a topic of current interest to the IAQ community will be delivered. The proposed topic for this meeting involves using novel approaches for exploring indoor environmental exposures, including some asthma triggers in homes. The agenda for the June meeting, including the specific topic and presenter, will be announced on the <u>CIAQ website</u> shortly. To register for the webinar, please <u>visit this link</u>. For audio, participants should call toll-free (855) 883-8661 and provide the operator with the conference ID 6983957 when prompted.

## **EPA presents Expert Advice on Asthma Management and IAQ Preventative Maintenance Tools for Schools**

Date: Thursday, June 6, 2019 Time: 1:00 p.m. – 2:00 p.m. EDT

This webinar featuring a live discussion will recap the strategies outlined in the Throwback Thursday Webinars re-released in May. You will hear how these asthma management practices are integrated into <u>IAQ preventive maintenance</u> and learn how to utilize EPA guidance to reduce asthma triggers and potentially reduce absenteeism. You also will have an opportunity to have your questions answered by school district representatives who successfully have reduced asthma attacks, increased attendance and improved academic performance. <u>Register here</u>.

#### **CLEAN AIR SPACES: Indoor Air Filtration to Protect Public Health During** Wildland Fire Smoke Episodes Web-based Summit

*Date/Time:* June 12-13, beginning at 7:30 AK/8:30 PDT and ending at noon AK/1 pm PDT on each day.

What are the Knowns and Unknowns?

Web Summit hosted by U.S. EPA Office of Research and Development, Air and Energy National Research Program

*Purpose:* To share current knowledge about the effectiveness of indoor air filtration approaches (central air handling and standalone portable air cleaners) to reduce indoor air pollution concentrations during wildland fire smoke events. *Attendees*: This event is open to registered attendees interested in the topic. We anticipate a diverse audience, including representatives from local, state, tribal, and federal government organizations, the scientific research community, and nonprofit organizations.

This is a free event; however, registration is required and space is limited. For additional information and event registration <u>click here</u>. Please register by June 7.

#### NTAA's Indoor Air Quality Work Group Presents an Informational Webinar: Policy Tools to Address Vaping and E-Cigarettes in Tribal Communities on Wednesday, June 26, 2019 at 2:00 pm ET

This webinar will explore vaping and e-cigarettes and how Tribes can create and utilize policy tools to reduce IAQ threats from this emerging trend in tobacco use. The 1 ½ hour-long webinar will include speakers from the California Department of Public Health's Tobacco Control Program (CDPH). You can register here.

Be sure to subscribe to <u>CodeTalk</u>, HUD's Office of Native American Programs newsletter, for webinars and opportunities!

#### RESOURCES

#### Ambient Air Quality/EPA/NTAA/Tribes

#### May is Asthma Awareness Month!

EPA supports local programs working to help people in their communities bring asthma under control. The first step is raising awareness throughout communities that asthma is a serious, sometimes life-threatening chronic disease that can be controlled. Though May is Asthma Awareness Month, don't wait to take action - you can make every month Asthma Awareness Month. Learn more about EPA's resources here.

#### Toxics/Mobile Sources

#### Applications are now being accepted for the Tribal Waste and Response Steering Committee (TWAR SC), Deadline: May 31, 2019

The TWAR SC is a Tribal Partnership Group composed of Tribal professionals working in the front lines on Superfund, solid waste, emergency response, UST, and brownfields programs. They provide two-way communication between US EPA's Office of Land and Emergency Management and Tribal professionals across the country. They also produce an annual Priorities Document, communicate Tribal concerns to federal agencies, assist with the development of the Tribal Lands and Environment Forum, serve as mentors to their colleagues at other Tribes, and collaborate with other Tribal Partnership Groups.

A selection team will be evaluating all the applications, and choosing up to five Tribal professionals to serve two year terms, starting on November 1, 2019. All applicants will be contacted later this summer to let them know if they have

been selected. The deadline for applications is May 31, 2019. If you are interested in being considered, please request an application from Todd Barnell at <u>todd.barnell@nau.edu</u>, and submit it along with your resume and up to three letters of recommendation. You may also contact Todd with any questions you have.

#### Indoor Air Quality

#### Spanish-Language Resources for Asthma Awareness Month

May is <u>Asthma Awareness Month</u>. EPA has information in Spanish about asthma and indoor air quality at <u>espanol.epa.gov/cai/recursos-para-la-calidad-del-aire-</u><u>interio</u>. The site has information on many indoor air pollutants, including environmental <u>asthma triggers</u>, <u>mold</u> and <u>carbon monoxide</u>. If you're working with a Spanish-speaking community to reduce exposure to environmental asthma triggers, this new <u>checklist</u> is useful. There also is guidance for cleaning up after a flood and improving air quality in <u>schools</u>. For outreach and educational activities, many Spanish-language publications are available online at <u>espanol.epa.gov/cai/publicaciones-sobre-calidad-del-aire-interior</u>. Additionally, the <u>National Service Center for Environmental Publications (NSCEP)</u> has quantities of free Spanish-language indoor air quality publications.

#### **FUNDING OPPORTUNITIES**

**Now Hiring!** The Hopi Utilities Corporation is hiring a Hopi Tribe Energy Manager More information here. Position posted May 20, 2019. Open until filled.

#### Ambient Air Quality/EPA/NTAA/Tribes

#### **EPA OLEM FY20 Environmental Workforce Development and Job Training** Grants – \$4 million

Applications Due: June 10, 2019 Eligible Entities: general purpose units of local government, land clearance authorities, government entities created by State Legislature, regional councils, This notice announces the availability of funds and solicits proposals from eligible entities, including nonprofit organizations, to deliver Environmental Workforce Development and Job Training programs that recruit, train, and place local, unemployed and under-employed residents with the skills needed to secure full-time employment in the environmental field. For more information, visit the funding opportunity <u>description</u>.

## **DOI BIA Tribal Resilience Grants and Ocean and Coastal Management and Planning Grants- Federally Recognized Tribes**

#### Applications Due: June 10, 2019

#### Eligible Entities: Native American tribal governments

The Bureau of Indian Affairs (BIA) announces funding for awards to support tribal resilience and ocean and coastal management and planning. Awards will be made to projects that address vulnerability to extreme events and harmful environmental trends through development of regionally focused or topically focused training, adaptation planning and data development, and travel to access training and attend technical workshops to build skills and capacity. Applications should describe how proposed projects will incorporate science (including Traditional Knowledge) and technical information to address vulnerability to extreme events and harmful environmental trends. Awards will also support projects that ensure tribal participation in ocean and coastal (including the Great Lakes) cooperative planning and projects for resource health, resiliency, community safety, and economic security for present and future generations. For more information, visit the funding opportunity <u>description</u>.

## **DOI BIA Tribal Resilience Grants and Ocean and Coastal Management and Planning Grants- Tribal Organizations**

#### Applications Due: June 10, 2019

## Eligible Entities: not-for-profit, non-governmental tribal organizations and associations, and tribally-controlled colleges and universities

The Bureau of Indian Affairs (BIA) announces funding for awards to support tribal resilience and ocean and coastal management and planning. Awards will be made to projects that address vulnerability to extreme events and harmful environmental trends through development of regionally focused or topically focused training, adaptation planning and data development, and travel to access training and attend technical workshops to build skills and capacity. Applications should describe how proposed projects will incorporate science (including Traditional Knowledge) and technical information to address vulnerability to extreme events and harmful environmental trends. Awards will also support projects that ensure tribal participation in ocean and coastal (including the Great Lakes) cooperative planning and projects for resource health, resiliency, community safety, and economic

security for present and future generations. For more information, visit the funding opportunity <u>description</u>.

#### **USDA AMS Farmers Market Promotion Program – \$11.5 million**

Applications Due: June 18, 2019 Eligible Entities Include: Food councils, local governments, public benefit corporations, regional farmers market authorities, tribal governments The U.S. Department of Agriculture (USDA), Agricultural Marketing Service (AMS), requests applications for the fiscal year 2019 Farmers Market Promotion Program (FMPP). FMPP's purpose is to help support the development, coordination, and expansion of direct-producer-to consumer markets to help increase access and availability to locally and regionally produced agricultural products. AMS will competitively award grants to eligible applicants for projects that meet the purpose of this grant program. For more information, visit the funding opportunity description.

#### **USDA AMS Local Food Promotion Program – \$115 million**

#### Applications Due: June 18, 2019

*Eligible Entities Include: Food councils, local governments, public benefit corporations, regional farmers market authorities, tribal governments* The U.S. Department of Agriculture (USDA), Agricultural Marketing Service (AMS), requests applications for the fiscal year 2019 Local Food Promotion Program (LFPP). LFPP's purpose is to help support the development, coordination, and expansion of local and regional food business enterprises to help increase access and availability to locally and regionally produced agricultural products. AMS will competitively award grants to eligible applicants for projects that meet the purpose of the grant program. For more information, visit the funding opportunity <u>description</u>.

#### **DOI FWS Multistate Conservation Grant Program – \$6 million**

#### Applications Due: July 26, 2019

#### Eligible Entities: state governments

The primary goal of the Multistate Conservation Grant Program is to provide grant funds to address regional or national priority needs (National Conservation Needs or NCNs) of the State fish and wildlife agencies (States) and their partners that are beyond the scope and capabilities of a single State. Projects awarded funding are published annually in the Federal Register. Projects funded through the MSCGP provide grant funds to address regional or national level priority needs of the States that are beyond the scope and capabilities of a single State. For more information, visit the funding opportunity <u>description</u>.

#### **DOI FWS State Wildlife Grant Program – \$1 million**

Applications Due: August 31, 2020 Eligible Entities: state governments

The State Wildlife Grant (SWG) Program provides States, the District of Columbia, Commonwealths, and Territories (States) Federal grant funds for the development and implementation of programs for the benefit of wildlife and their habitats, including species that are not hunted or fished. Eligible activities include both conservation planning and implementation activities. For more information, visit the funding opportunity <u>description</u>.

#### Toxics/Mobile Sources

## MPCA offers \$3.7 million in grant funding for diesel on-road trucks and transit buses

The Minnesota Pollution Control Agency (MPCA) is offering \$3.7 million in grant funds to replace heavy duty diesel trucks and transit buses (class 4-8) in Minnesota. The grants are aimed at dramatically reducing nitrogen oxide (NOx) pollution.

How much funding is available?

Up to 25% or \$40,000 (whichever is less) per replacement

Who can apply?

Any diesel truck owner, private fleet owners, and nonprofit organizations <u>What is eligible?</u>

- Class 4-8 diesel trucks and transit buses, including short-haul delivery trucks, refuse haulers, cement trucks, box trucks, and drayage trucks (No long-haul trucks or school buses)
- The old vehicle must be diesel (1992-2009)
- New replacement vehicles may be diesel or an alternative fuel such as propane, natural gas, hybrid, or electric (not gasoline)

How do I apply?

- All application materials and eligibility details are on the MPCA website: <u>Diesel On-road truck and transit bus replacement grant</u>
- The Application period ends <u>July 9, 4:30 P.M.</u> All applications must be sent via email. No PDFs

Where can I get more information?

- A Webinar reviewing the RFP and application forms was given May 16, 1-2:30 PM. The webinar will be recorded and posted online.
- Questions must be sent by email to: <u>grants.pca@state.mn.us</u>, all questions will be answered and posted on this Web page under the Frequently Asked Questions (FAQ) tab.

#### **Indoor Air Quality**

The Tribal Healthy Homes Network (THHN) has a webpage dedicated to <u>Funding Opportunities</u>! Additionally, THHN has developed a <u>Funding Guide for</u> American Indian and Alaska Native Communities.
